FEDERAL OFFICIALS AT SEV-
ERAL BIG CITIES ROUND UP
MESSENGERS WHO WERE VIOLAT-
ING THE POSTAL LAWS.

SEVERE PENALTIES PROVIDED
FOR VIOLATING MAIL MON-
OPOLY GRANTED TO THE
POSTOFFICE DEPARTMENT.

(International News Service)

New York, June 20.—Acting under
orders from Postmaster General Bur-
leson, postoffice inspectors in this city,
Boston, Baltimore and Washington
today seized thousands of night let-
ters which the Western Union Tele-
graph company was alleged to be at-
tempting to deliver by messenger in-
stead of over its wires.

It is charged by federal officers
that Western Union messengers car-
rying these night letters from Wash-
ington, New York, Boston and Balti-
more had traveled on passes issued
by the government.

In this city 1,200 letters were seized.
The sending of letters by messen-
ger is a violation of the federal law
which makes it a criminal offense
for a telegraph company to interfere
with the government mail monopoly.
The penalty is a fine of \$500 and six
months' imprisonment, or both.
Officials stated that they intended
to institute both civil and criminal
actions.

**Young Russian in U. S. Army Meets Wife,
Who, Believed Him Executed in Russia.**

(International News Service)

San Francisco, June 20.—The same
destiny that tore William Shav-
chenko from his 17-year-old bride,
Dora, in Russia six years ago and
led her to believe that he had been
executed for a political crime against
the Czar has restored him to her in
free America.

But now she is the wife of Michael
Bakanoff and the mother of his 3-
year-old son.

Shavchenko is in the United States
army, a private at Camp Fremont,
near here. And Dora Bakanoff loves
this modern Enoch Arden just as she
loved him when they were married in
Rostov-on-Don.

Mrs. Bakanoff has left her present
husband and sued for the possession
of her child. She says she will ask
an annulment of her marriage to him
in 1914.

After Shavchenko had been carried
away by the Czar's troops and pre-
sumably executed his young wife
came to the United States where she
married Bakanoff. Shortly after the
birth of their son they quarreled and
the wife left her husband.

(International News Service)

Paris, June 20.—Premier Clemen-
ceau's newspaper, L'Homme Libre,
says advices have been received from
Washington that a plan is under way
for training troops of South American
republics in the United States.

Washington, June 20.—Training in
the United States of troops of some
western nation, or nation, also at war
with Germany is under consideration
and the war department is preparing
to ask congress for an appropriation
to cover such activity.

At the department today it was
said that this project has not reached
the point where any particular nation
had been approached in this con-
nection, but that it was thought wise
to have the necessary funds available
in case a favorable decision was
reached while congress was in recess.

(International News Service)

London, June 20.—Twenty-one Ger-
man destroyers, a large number of
submarines and numerous auxiliary
craft are penned in the Bruges
canal locks as the result of the recent
British naval operations at Zeebrugge,
the German submarine base on the
Belgian coast. Thomas J. McNamara,
financial secretary of the admiralty,
made announcement in the house of
commons to this effect today and said
that the operations were more suc-
cessful than at first had been sup-
posed. He added that the German
craft were now the subject of con-

been solicited by his friends to make

announced that he had decided to en-

This is the first entry in a competi-
tion that promises to be spirited, as
a number of other prominent citizens
are said to have similar aspirations.

Captain Blackwell has served three
terms as mayor of the city, and was
also third auditor of the United States
treasury under President Cleveland.
He is one of the best known attor-
neys, orators and politicians in this
section of the state, and will be a
formidable contender for the honor
which he seeks.

**GRAFTERS TRIED TO
COLLECT TWICE ON
BILL FOR REPAIRS.**

**GOVERNMENT DRAG NET GETS
FOUR MEN WHO HAD
CLEVER SCHEME.**

Washington, D. C., June 20.—
Indictments have been returned by
a federal grand jury, charging four
men with trying to collect on a du-
plicate bill for \$187,000 submitted
by a drydock company for repairs to
a government vessel.

The four indicted are Clyde C.
Waltman, a yeoman in the navy, de-
partment's bureau of supplies and ac-
counts; Charles E. Waltman, his
brother, a business man of Victoria,
Va.; Benjamin W. Peake, a soldier
at Fort Meigs, Washington, formerly
of Berea, N. C., and D. Malvin Mow-
ery, a stenographer employed in the
signal corps office, formerly of Lan-
caster, Penn.

Clyde C. Waltman and Mowery,
who are room-mates in Washington,
are alleged to have conceived a
scheme for getting the navy depart-
ment to pay the same bill twice, and
to collect one of the payments through
a confederate in the offices of the
company, rendering the bill. They
successfully tested the plan twice, it
is charged, but did not try to actually
collect the money, and the firms re-
turned the duplicate payment to the
government.

Finally, with free access to navy
department files, they were said to
have obtained a bill for \$187,000 re-
ndered April 23 by the Morse Drydock
and Repair company of New York, for
repairs to the government vessel
Canandaigua, between March 1 and
March 15 this year. After the bill
was alleged to have been taken from
the files, the company was told it
was lost and was asked to submit a
duplicate, which was paid. Before the
men presented the original bill for
payment they were arrested.

The scheme failed, it is said, be-
cause the men tried through Peake
to get in touch with a confederate in
offices of the drydock company and
an unnamed soldier who heard of the
plot informed the government. Charles
E. Waltman became involved through
some correspondence with his brother
on the subject. All four men have
been arrested and released on bail.

**Capo Silo Captured by Cardona's Men in Brill-
iant Fighting. Austrian Offensive
Crumbles.**

The same masterly strategy, coupled with a spirit of "they
shall not pass" which won for the allies on the battle fronts in
France, is winning for the entente forces in the Italian theatre
of war.

As the Italian assaults grow in strength in the mountains
flanking the Asiago plateau and on the Piave river, the Austrian
attacks grow weaker. The Austrian ranks are being raked with
a devastating fire from the Italian artillery by day and by night.
The Austrian war office claims that the Austrian forces on the
lower Piave have crossed the Fossetta canal at several points, but
this has not been confirmed from any other source.

American airmen will soon be fighting alongside the Italians,
French and British on the Italian front. A contingent, the
first to be sent, has already left for that zone of battle.

The battle for Rheims which opened Tuesday night in France,
died out as suddenly as it began. It proved another costly failure
for the German crown prince.

(International News Service.)

London, June 20.—The International News Service learned
this afternoon from an authoritative source that the Italians
have captured Capo Silo and all the ground between Zenson Loop
and the Fossetta canal by a series of strong counter attacks.

GENERAL WAR SITUATION IS FAVORABLE

(International News Service.)

Washington, June 20.—The general war situation was ex-
ceptionally favorable today. Officialdom was distinctly optimis-
tic over a number of matters that stood out prominently.

(International News Service.)

London, June 20.—Great artillery activity has again develop-
ed in the Somme and Ancre valleys on the Picardy front and near
Albert and La Bassée, the war office announced today. There
was raiding activity elsewhere.

(International News Service.)

London, June 20.—"There is nothing new to report," the
German war office announced late Wednesday evening, said a
dispatch from Berlin.

The brief statement of the Berlin war office shows plainly
that the great German surprise attack at Rheims was a com-
plete failure.

(International News Service.)

Rome, June 20.—The Italians have gained more ground in lo-
cal attacks in the sector of the Asiago plateau, the Italian war
office announced. Hundreds of prisoners were captured, as well
as machine guns. Fighting which is termed lively is in progress
around Montello and along the lower Piave.

**U. S. AVIATORS NOW
ON ITALIAN FRONT**

Washington, June 20.—The first
escadrille of American aviators trained
in Italy started for the Italian
front, and will go into action im-
mediately upon their arrival, the Italian
embassy was informed today by cable
from Rome. The aviators are accom-
panied by Captain LaGuardia, a mem-
ber of congress, who has been in Italy
"This first contingent," said the cable-
gram, "is composed of volunteers
representing the finest specimen of
American youth. This morning they
were received by Commissioner of
Aeronautics Chiesa and Assistant Sec-
retary of State Gallenga and numer-
ous civil and military authorities.

"After many evidences of solidarity
given by the United States this con-
tribution of airmen to our fighting
forces constitutes a fresh truth of
the invaluable support of America,
the significance of which is deeply ap-
preciated by the Italian nation."

They included the certainty that
the Austrian drive not only has been
definitely checked but realization that
the swelling waters of the Piave
river, which has carried away many
bridges, has thrown the forces of
nature on the side of the Italian
army. Information from neutral
sources says that Germany cannot
spare additional troops to operate
with the Austrians because of the
speed with which American troops
are being sent to France.

Washington, June 20.—Another
striking example of the way in which
Berlin distorts the news served up to
the German people was revealed to-
day when the state department re-
ceived a cabled copy of the Lokai
Anzeiger's account of the sinking of
the transport President Lincoln.

According to the story, the newspa-

THE APPARENT FAILURE OF THE AUSTRIAN OFFENSIVE.

One of the pleasant surprises of the war is the apparent failure of the offensive launched less than a week ago by Austria against Italy. While it is too early yet to say that danger from this source has been issued, even the conservative military critics are of the opinion that the drive has been definitely checked. It only has it been brought to a standstill, but the enemy has been thrown back in such a decisive way as to weaken the morale of the Austrian armies and further increase the satisfaction which exists in the dual monarchy.

The allied nations expected the Italian lines to hold. However, they did not expect that the human tide of 72 divisions which was sent forward under German direction would sweep off its feet without some round being sacrificed and some substantial gains made. The history of the war has been that an advance movement by either side planned on a colossal scale and executed vigorously always nets the attackers a certain amount of terrain and a good many thousands of prisoners. The impetus of such a movement has heretofore been temporarily irresistible. The onrushes in the past have been checked gradually, as the reserves were used up. It is apparent that Italy has perfected a new form of strategy—the quick counter blow delivered at the moment of attack—or that the Austrian army has lost its punch. Either way, the results are very satisfactory.

No optimism is required in asserting that the tide of the great world struggle has turned. The German menace is removed. From now on, the problem confronting the allied commanders will be the termination of the war by effective blows.

NICK LONGWORTH AND HIS BLATANT OUTBURSTS.

The Muscle Shoals project can always count on two enemies. One of these is Collier's Weekly and the other is Nick Longworth, husband of Alice Roosevelt. Both seem obsessed of the same idea—that it is criminal for the great federal government to spend money in the South.

Even now, with the nitrate plants almost completed and the building of the dam authorized, Mr. Longworth cannot refrain from occasionally haranguing Congress in regard to the Muscle Shoals development. He has nothing to say regarding the Hog Island scandal, not a word does he chirp about contingent fee grafting. The delay in the aeroplane program has never seemed to give him a moment's worry. Muscle Shoals is his mania, and there is no doubt but that he would abolish the entire Tennessee river if he could.

The blatant blast from Nick's puny gong that was sounded in the House yesterday was the same old story. Nick is opposed to everything that has been done. It is all wrong, though authorized by the war department. It is wasteful and extravagant, though war necessities require the liberal use of money in securing quick results. In fact, the darn thing is being done in Dixie and that in itself is enough to condemn it.

The people of the Tennessee Valley will not be disturbed by Nick's rancor. He is merely a little political mistake that is tolerated because he is Teddy's son-in-law and the owner of a bulging barrel.

A HAZARDOUS EXPERIMENT.

(From the Pittsburgh Dispatch.)

The proposal to send the American hospital ship Comfort to Europe without escort in the hope that the German U-boats would respect its character has provoked many protests that it is too hazardous an experiment in view of Germany's record in attacks on hospital ships and hospitals. Comment in the Berlin Local Anzeiger will strengthen this suspicion. It asks, sisterly, what the Comfort will carry on her first voyage to Europe, as she will have no sick or wounded aboard, and suggests aviators and aeroplanes. This absurd charge has already been offered as an excuse for attacks on other Red Cross ships, and

the Anzeiger's query is possibly laying a foundation for another outrage on the Comfort, if she is dispatched without escort.

That such a ship on her first trip would carry surgical and hospital supplies, nurses and attendants, is ignored by the German command, which easily sets out to assume an excuse for attacking her. It is, of course, possible that an official safe conduct might be obtained that would perhaps justify trusting her to the "mercies" of the U-boat commanders, but experience has shown that these gentry make "mistakes" despite governmental assurances. Between a government that considers the most solemn obligations mere "scraps of paper" and submarine commanders who believe "spurious veni" will cover a multitude of sins, it may be safest to send the Comfort under escort.

A LETTER FROM MOTHER.

He was in the line in Flanders doing service for the flag.

He was telephone and wireless with that little bit of rag.

At the farthest point from safety He was standing at his post, Picking up the information his captain needed most.

When a flash behind the trenches caught his ever-watchful eye, And he stood and read the message that was flashing through the sky.

Over miles of dreary trenches, over friendly gun and foe, Came each cheerful flashing letter of the news he wished to know.

Through the heat and hate of battle and the smoke-filled atmosphere Came this little touch of kindness and this simple word of cheer.

Not a stern command of duty, but a word of which to boast, There's a letter from your mother waiting for you at the post.

There's a letter from your mother, can't you picture now the joy That went dancing thru the shell fire to that lonely signal boy?

Oh, I don't know how to say it, but somehow it seems to me, That in hearts so fine as they are, lie the seeds of victory.

Hate and lust will never triumph over boys who'll tell each other In the heat and clash of battle, there's a letter from your mother.

Discipline.

There is not that thing in the world of more grave and urgent importance, throughout the life of man, than is discipline. What need I instance? He that hath read with judgment of nations and commonwealths, of cities and camps, of peace and war, sea and land, will readily agree that the flourishing and decaying of all civil societies, all the movements and turnings of human occasions, are moved to and fro as on the axle of discipline. So that whatsoever power and sway in mortal things weaker men have attributed to fortune, I durst with more confidence ascribe either to the vigor or the slackness of discipline. And certainly discipline is not only the removal of disorder . . . but the very visible shape and image of virtue; whereby she is not only seen in the regular gestures and motions of her heavenly paces as she walks, but also unakes the harmony of her voice audible to mortal ears.—Milton.

FURLOUGH HOMES FOR OUR BOYS IN FRANCE

Two Million Dollars to Be Used in Establishing These Homes.

The club women of the United States have undertaken the task of raising two million dollars for furlough homes for our boys in France. These homes are for the use of our soldiers, who, worn out from constant service in the trenches, are off duty for a short furlough.

Patients in the hospitals, ready to be dismissed from the hospitals, but not strong enough to re-enter service, may find comfortable homes in the furlough houses.

Raymond Fosdick, head of the commission on camp activities at Washington, says that this is the grandest work that the women of America have undertaken.

These homes are being built now and will be completed this summer. All funds collected on Tag Day above our illiteracy quota will be used in this holy and noble cause—the care of America's sons, overseas.

CARED LITTLE FOR POLITICS

President Cleveland, However, Had Real Liking for the Law, and Loved to Fish.

"President Cleveland loved the law better than he did politics," remarked R. O. Brown, a former resident of Buffalo, to a reporter of the Washington Post. "Had he considered his own desires he would never have left his practice for political office. I doubt if even the prospect of becoming president would have induced him to enter politics."

"It was my privilege to know Mr. Cleveland when he was practicing his profession before he entered politics. He was not what might be termed a glittering success as a lawyer. He had no business instinct so far as the law was concerned, but he delighted in intricate legal problems, and much preferred to take a case that involved apparently hopeless questions. It could not be said he was a good pleader, and while the average person was not attracted by his addresses in court, judges on the bench had the greatest respect for them, because they were profound and logical."

"When he was not engaged in law, Cleveland delighted in utter abandonment of all things that required thought; above everything else he loved to fish. I recall that when some of his Democratic friends wanted him to become a candidate for mayor he said: 'I don't want any more of politics. I want to stay right here in Erie county, where I can go fishing occasionally. I do not care if I never get outside the borders of Erie.'"

TEXAS SUFFRAGE LEADER

Until the recent passage of a bill granting primary suffrage to women, Texas had a lonely woman voter. Mrs. Hortense Ward, as a member of the Texas bar, could vote at the election of special judges. However she worked tirelessly to enlarge and extend this privilege to all the women of her home state.

The taggers will see you on next Saturday.

Little Profit in Salt.

A recent investigation by the bureau of mines proves that a salt famine in the United States is unlikely, says the Popular Science Monthly. At the same time it was established that owing to the low price of salt and the abundance of its supply there is but little profit in the salt industry, although the American salt works have supplied in recent years practically all the salt consumed in the United States. What a pity—for the profiteers—salt is not used in munitions!

GIVEN HONOR NOT DESERVED

Error of Learned Men Responsible for America Being Named After Amerigo Vespucci.

The story of how the new world received the name of America is a striking example of what publicity will accomplish. Amerigo Vespucci, a highly educated Florentine, was head of a business house in Seville, Spain, probably as agent for the great trading firm of the Medicis, and helped to fit out one of the expeditions with which Columbus sailed. When the latter's monopoly was revoked, Vespucci undertook several voyages of exploration on his own account, during which he claimed in many letters to have been the first to reach the mainland of the new continent, giving the date as June, 1497.

On April 25, 1507, the learned heads of the University of St. Die, in Lorraine, decided, incorrectly, that he was entitled to the honor of discovery, Columbus having only reached the islands of the West Indies, and that the western hemisphere should bear his name. The name America was, therefore, first used in the book "Cosmographie Introductio," by Martin Waldseemuller, professor of cosmography at the university.

It has since been shown that Vespucci was preceded by both Columbus and John Cabot, but it was too late, the new world had been christened America and the fact advertised in print. The house where the meeting was held at which the classical error was made was still standing at St. Die at the outbreak of the war, and was annually visited by many tourists from both North and South America.

How to Use the Telephone.

Telephone experts declare that if a person speaking over a phone holds the transmitter four inches from his mouth it is equivalent to adding about 220 miles to the line over which he is conversing. Carelessness in using a telephone is one of the common causes for indistinct transmission. The best results are obtained by allowing about half an inch to intervene between the mouth and the transmitter, according to Popular Mechanics Magazine.

Says Take Liver Medicine For Sick Headache

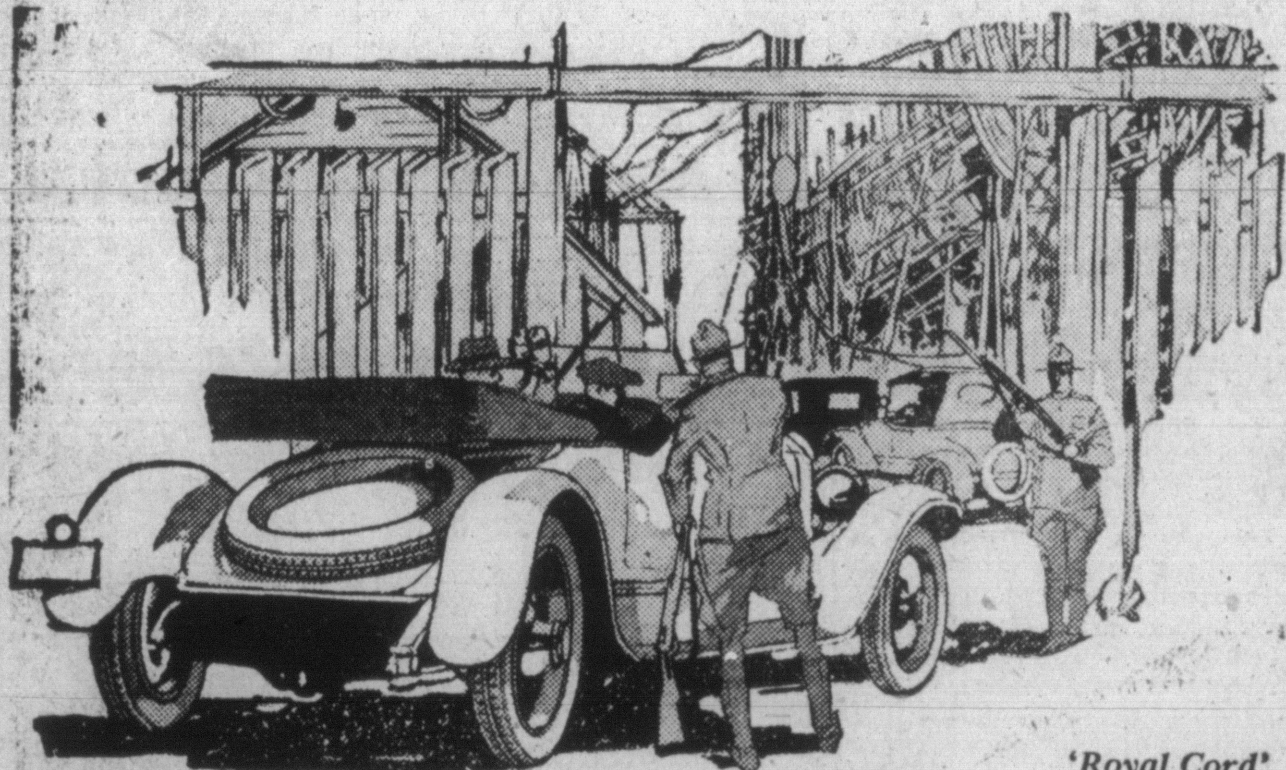

It may seem a far cry from sick headache to sick liver, but we have the word of an eminent specialist for this. He says, also, that the use of headache remedies containing acetanilide or anti-pyrene is sometimes attended with great danger by reason of the depressing effect of these drugs upon the heart.

According to his theory, sick headache, aching limbs and that dull, sluggish, half-sick feeling are really a symptom of liver trouble and resultant constipation. Haven't you noticed that you suffer most this way when you are bilious or constipated?

A safe and sane remedy for sick headache and other symptoms of constipation and liver sluggishness is "333" Liver Tonic, a deliciously flavored preparation of the pure, laxative extracts of fruits, herbs and plants combined with Pepsin. It gives the entire digestive system a thorough and gentle cleansing, sweeping out the poisons and impurities which so often cause pain and suffering.

333 Liver Tonic is much different from other liver medicines in that it has such splendid tonic effect upon the liver, stomach and bowels. Its use may be discontinued at any time without bad effect.

You will do well to keep a bottle of this medicine handy at all times. Its timely use will prevent much sickness, suffering and expense. Genuine 333 Liver Tonic can be bought in big fifty-cent packages at Dillehay Brothers and other good drug stores. Do not be satisfied with a substitute. If your druggist hasn't genuine 333 Liver Tonic in stock, he can get it for you quickly.
